

People

have

many

questions

about the

coronavirus

illness.

Let's

read

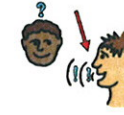

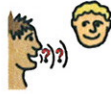

the

questions

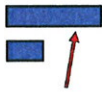

and

some

answers.

How

long

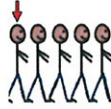

will

this

illness

last?

We

don't

know

how

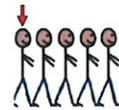

long

this

will

last.

We

promise

to keep

people

aware

of

what is

happening

and

what

we

know.

No one

has

all

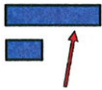

the

answers.

How

long

should

we

be

home?

We

will

keep

people

home until

we

know

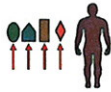

for

sure

that

everyone

will be

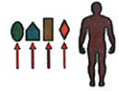

safe.

We

care about

everyone

&

and want people to stay healthy.

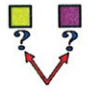

?

How will I know if I have the illness?

Staff will be checking you for symptoms. Some

symptoms are being really tired, running a fever or

having

a cough.

If staff

feel

you

may

have the

illness,

they will

take

you to

the

doctor

or

hospital

to be tested.

Am

I

carrying

the

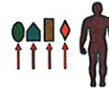

virus?

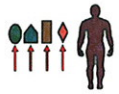

We do not know if you are so that is why your

staff is watching you for any symptoms.

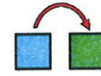

How are we working to keep everyone safe?

Everyone is washing their hands often and thoroughly.

&

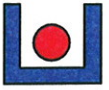

We are cleaning the house and any other areas often

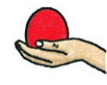

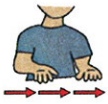

&

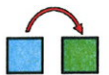

and thoroughly with strong cleaners.

In some cases, we may be wearing masks. We

will do that especially if someone already has some

other illness.

If a staff person is sick, they will not come to

&

work and will stay home.

My staff is wearing masks, what does that mean?

Wearing masks probably means that someone living

in

your

home

has

an

illness

that

is

not

this

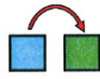

virus

but

something

else.

We

then

wear

masks

to

be extra careful

to

protect

the

person

who is

sick.

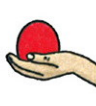

Why

can't

I

have

visitors

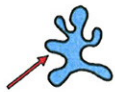

right

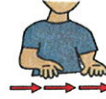

now?

We all know it is sad that we cannot have

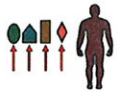

visitors. The reason we are doing this is because

people coming and going out of the house can be

carrying the virus. We are trying hard to keep

everyone safe and healthy. We decided to stop

visitors

for

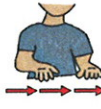

right

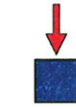

now

to

do

this.

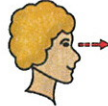

Why

can't

I

see

my

family?

We

know

this

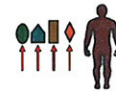

is

even

harder

for

everyone.

We

are

again

trying

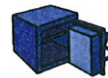

to

keep

people

safe

and

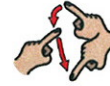

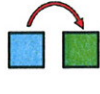

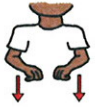

healthy.

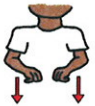

We have ways for each person to communicate

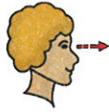

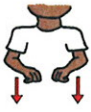

with their family member using technology so you

can see each other. Even if I cannot talk, I

can still Facetime with my family or friends so

I can see them.

I

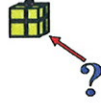

miss

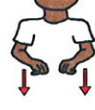

my

friends,

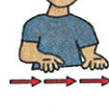

what

can

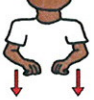

I

do?

You

can

call

your

friends

just

like
